ZEP Communication Task Force Update #4

Philippe Lacour-Gayet

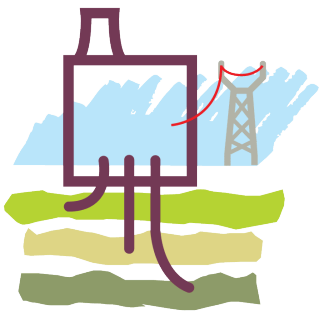

ZEP AC#10

Brussels, March 14th 2007

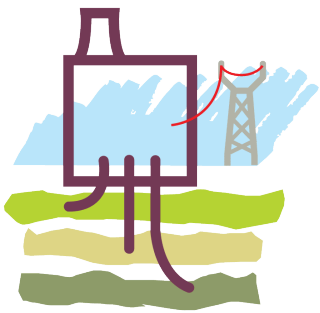

Progress so far...

- First plenary meeting of Communication Task Force held in Paris on December 18th, 2006 (20 participants)
- Two workgroups formed:
 - “Toolbox”. Met February 8th, 2007 (4 participants)
 - “Campaign”. Met February 15th, 2007 (8 participants)
- Second plenary meeting of Communication Task Force held in Paris on March 1st, 2007 (15 participants)

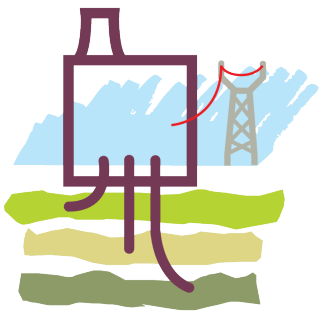

First conclusions

- Our long term goal is to make our Task Force irrelevant by gaining a wide acceptance of CCS in the EU
- But... we have to act quickly: Global Warming is in the mind of the Public now and the fight for CCS will be won or lost in the coming 2/3 years.

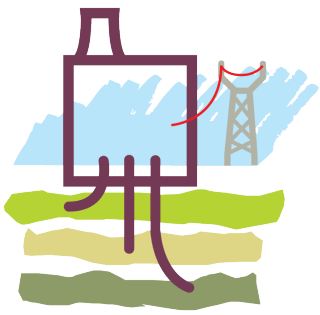

First actions

1. Design a web site dedicated to CCS only (separate from the main ZEP web site): people learn as they go deeper and deeper into the web site. Estimated budget 80,000€
2. Organize debates in universities with "pros" and "cons" panels. Would be a way to test how good the CCS case is to help write FAQs. First debate could be on 12 June in Berlin right after ZEP meeting and before Ketzin launch.
The task force thought this may be too early...

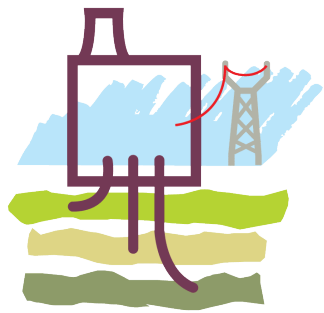

What is next

- Need to address specifically 3 communities, who have different profile and great influence
 - NGO
 - Journalists
 - Policy Makers
- Formed 3 workgroups on how to reach effectively each community
- Next plenary meeting: May 23rd, Brussels

Issues

- Co-Chairs: P. Lacour-Gayet is the only co-chair. Need at least 2 more: a communication person, a NGO person.
- Task Force membership. 35 people have been invited. 25 showed up at least once. WWF and Greenpeace absent. Still more candidates... Guidance?

Pending applications to the TF
